DESCRIPTION

Camden **DOOR CONTROLS CM-250/280 Series** push switches are light-duty, ADA-compliant door controls. The single gang and narrow faceplates are stainless steel. CM-250 is designed for easy installation directly in the door jamb, or use optional surface box. The SPDT switches are UL/CSA approved, and rated 15 Amps. @ 30 VDC.

APPLICATION

Camden 1" push button switches are designed to control electric locks & strikes, magnetic locks, automatic pedestrian & overhead doors.

They may also be used for shunting, bypassing alarms, request to exit, timed functions and many other applications. Camden switches are versatile and can be supplied in various logos and languages to suit any commercial, industrial or residential application.

ARCHITECTS/ENGINEERS SPECIFICATIONS

The switches to be used throughout the site/complex shall be Camden Door Controls CM-250/280 series push switches.

The switches shall be easy-to-activate, ADA compliant and utilize a 1" red button. Faceplates shall be constructed of 18 gauge stainless steel, and have matching stainless steel mounting screws. Switches shall be rated at a minimum of 15 Amps. @ 30V DC.

ECONOMY 1" PUSH SWITCHES
